Perducere Semitas Ad Astra

## PAREF Southcrest

Math 7<br>Topic Outline

## 1st Quarter

The Real Number System
I. Exponents, Order of Operations, and Inequality
II. Variables, Expressions, and Equations
III. Real Numbers and the Real Number Line
IV. Operations with Integers
V. Properties of Real Numbers
VI. Simplifying Expressions

## Linear Equations and Inequalities in One Variable

I. The Addition Property of Equality
II. The Multiplication Property of Equality
III. More on Solving Linear Equations

PAREF Southcrest

Math 7<br>Topic Outline

| 2nd Quarter |  |
| :--- | :--- |
| Linear Equations and Inequalities in One Variable |  |
| IV. | An Introduction to Applications of Linear Equations |
| V. | Formulas and Applications from Geometry |
| VI. | Literal Equations |
| VII. | Solving Linear Inequalities |
| Linear Equations in Two Variables |  |
| I. | Linear Equations in Two Variables; The Rectangular Coordinate System |
| II. | Graphing Linear Equations in Two Variables |
| III. | The Slope of a Line |
| IV. | Writing and Graphing Equations of Lines |
| V. | Introduction to Functions |

PAREF Southcrest

Math 7
Topic Outline

| 3rd Quarter |  |
| :--- | :--- |
| Systems of Linear Equations |  |
| I. | Solving Systems of LInear Equations by Graphing |
| II. $\quad$ Solving Systems of Linear Equations by Substitution |  |
| III. $\quad$ Solving System of LInear Equations by Elimination |  |
| IV. Applications of Linear Systems |  |
| Exponents |  |
| I. Laws of Exponents |  |
|  |  |

PerducereSemitas Ad Astra

Math 7
Topic Outline

| 4th Quarter |  |
| :--- | :--- |
| Polynomials |  |
| I. | Adding and Subtracting Polynomials |
| II. $\quad$ Multiplying Polynomials |  |
| III. | Special Products |
| IV. | Dividing Polynomials |
